

DAMIEN GOLDEN

AI Governance & Cybersecurity Professional | Independent Apple Application Developer

St. Louis, Missouri | [GitHub](#) | [The Control Layer™](#)

PROFESSIONAL SUMMARY

Governance and cybersecurity professional combining enterprise operations leadership, cybersecurity education, and independent application development. Founder and architect of The Control Layer™, a governance architecture emphasizing human authorization, least privilege, policy enforcement, auditability, and evidence-based execution.

PROFESSIONAL EXPERIENCE

Spectrum (Charter Communications) — Residential Inbound Sales Representative; previously Technical Repair Supervisor and Internet Repair Representative | 2022–present

- Supervised and coached technical support teams; supported quality assurance, operational performance, and customer experience.
- Earned **Top Performing Supervisor** recognition (May 2023) and multiple top-performing team awards (2022–2024).

Slim Chickens — District Manager

- Led multi-unit operations, staffing, performance management, compliance, and leadership development.

INDEPENDENT SOFTWARE & GOVERNANCE PROJECTS

The Control Layer™ — Founder / Architect, Golden Governance LLC

- Developed governance architecture separating AI capability from legitimate human authority through controlled execution, risk assessment, and audit evidence.
- Published a public governance portfolio on GitHub while maintaining boundaries around private infrastructure and proprietary controls.

Security+ Academy — Apple Application Project

- Developed local Xcode projects for macOS and tvOS, with cybersecurity learning, assessments, and simulation concepts.

AIGP Academy — Apple Application Project

- Developed a standalone Xcode application project focused on AI governance education, scenarios, and exam readiness.

Control Layer Mobile / TV — Apple Application Projects

- Created Apple mobile and tvOS Xcode projects. Apple Development and Distribution signing identities are configured locally.

Application projects are in development; public App Store release status has not been verified.

EDUCATION & HONORS

Saint Louis University — B.S. Computer Information Systems, Cybersecurity concentration (in progress); Dean's List. M.S. Information Systems and Emerging Technologies graduate pathway.

Honors: National Society of Leadership and Success; Order of the Sword & Shield (2025).

SELECTED PROFESSIONAL DEVELOPMENT

Google Cybersecurity; Microsoft Cybersecurity Analyst; Google Cloud Cybersecurity; AWS cloud architecture training; data analytics; project management. MedCerts Cyber Security Analyst (CySA+) **program completion** is not a CompTIA CySA+ certification.
