

DAMIEN GOLDEN

GRC ANALYST | CYBERSECURITY GOVERNANCE SPECIALIST | RISK & COMPLIANCE ANALYST

St. Louis, MO | damiengolden36@gmail.com | (314) 239-9961 | [linkedin.com/in/damien-golden](https://www.linkedin.com/in/damien-golden) | github.com/damiengolden3674

PROFESSIONAL SUMMARY

Cybersecurity and governance professional combining enterprise operations leadership, technical escalation, risk/compliance, AI governance, cloud governance, and hands-on technology work. Founder/architect of The Control Layer™, a living governance control plane built around human authority, bounded AI, policy enforcement, governed execution, continuous telemetry, and sanitized public proof.

CORE CAPABILITIES

AI Governance • Cybersecurity Governance / GRC • Enterprise Risk • Cloud Governance • IAM • NIST CSF / AI RMF concepts • Security Operations • Incident Response • Vulnerability Management • Linux / Networking • Python / Automation • SQL / Data Analytics • Project Management • Executive Reporting

PROFESSIONAL EXPERIENCE

Spectrum (Charter Communications) — Residential Inbound Sales Representative | Mar 2022 – Present

Support customers in a high-volume telecommunications environment; previously served as Internet Repair Representative and Technical Repair Supervisor. Supervised and developed 13–19 agents; managed KPI performance, quality assurance, coaching, operational execution, and customer-experience outcomes. Recognized as a Top Performing Supervisor.

Slim Chickens — District Manager | Prior experience

Directed multi-unit operations supporting approximately 400–500 employees and 25–40 salaried managers; owned staffing, budgeting, labor optimization, compliance, profitability, leadership development, and operational performance.

EDUCATION

Saint Louis University — B.S. Computer Information Systems, Cybersecurity Concentration | 3.88 overall | 3.95 CIS | Dean's List | Expected May 2027

Saint Louis University — M.S. Information Systems and Emerging Technologies | Online graduate path

CREDENTIALS & PROFESSIONAL DEVELOPMENT

Microsoft Cybersecurity Analyst • Microsoft IT Support Specialist • Microsoft Generative AI Engineering • Microsoft AI Agents • AWS Cloud Solutions Architect • AWS Cloud Technical Essentials • Google Cybersecurity • Google Cloud Cybersecurity • Google IT Support • Google Business Intelligence • Google Advanced Data Analytics • Google Cloud Data Analytics • Google Project Management • Responsible Generative AI • Strategic AI Governance • AI for Cybersecurity • Information Security Analyst • Cybersecurity Leadership and Management • **Security+ planned Oct. 13, 2026**

CONTROL LAYER™ / GOVERNANCE PORTFOLIO

Founder/architect of a living governance control plane: HUMAN → FRONTIER AI COMBINATION → CONTROL LAYER → CONTROL AI → GOVERNED EXECUTOR → ECOSYSTEM → PROOF/AUDIT. Core rule: **intelligence ≠ authority**. Decisions use EXECUTE / HOLD / ESCALATE / DEFER / SIMULATE. Engineering controls include authority ceilings, sanitized-only public boundaries, SHA-256 integrity evidence, runtime reconciliation, policy enforcement, artifact provenance, security evaluation, and recovery evidence. Public portfolio: github.com/damiengolden3674/the-control-layer-public.

CAREER POSITIONING

AI Governance Leader • Cybersecurity Governance Director • Enterprise Risk Director • Cloud Governance Architect → Executive Leadership

LIVE VERIFICATION
